

Hella!

INTRODUCTION

Hello everyone! My name is **Elsie** and I am from the sunny island of Singapore. During my free time, I like to read, write and draw. Movies and television shows such as Avengers, Sherlock and The Witcher are also some of my favorites. Hokkaido is very beautiful, so I am very happy to come and experience the nature and scenery here!

MY DIET

I am also a **vegetarian**, which means I do not eat meat, fish or any seafood. As Singapore is a multiracial (多民族) and multicultural (多文化) country, we have Indian, Malay and Chinese food. Here are some photos of my favourite food:

Laksa

Masala Dosa

The dishes above are completely vegetarian. Even without meat, there is a lot of yummy vegetarian food in Singapore!

ICE KACHANG

I also love desserts! I like their sweet taste, and cold desserts are very popular since Singapore is so hot and humid. This is **ice kachang**, a traditional shaved ice dessert. There are usually red beans, grass jelly, and nata de coco at the bottom!

ONDEH ONDEH

This is **ondeh ondeh**, a boiled rice cake covered with coconut bits. It has a pandan flavor, which tastes similar to vanilla, and it is filled with sugar syrup on the inside.

What I love best about Singapore is the festivals. We have many unique festivals and I like to go and experience them because they're always very lively and fun!

NATIONAL DAY

On 9 August, Singapore celebrates **National Day** as this is the day our country became independent. Everyone will come together and sing songs and wear red or white clothes. Best of all, there will be a show and fireworks to see!

LUNAR NEW YEAR

Lunar New Year is a very big event in Singapore! All family members will gather and have a huge reunion dinner together. I love this festival as there is always a lot of delicious food and snacks to eat, and the adults will give children red packets filled with money. There will also be lion dance performances, and beautiful decorations all around!

If you have any questions on English or Singapore, come and talk to me! I'd be happy to answer and chat with you.

See you!
